

DEF Dispensing Hose

Applications

Goodyear's DEF Dispensing Hose is specifically designed to convey the high-purity, aqueous urea solution DEF. The tube compound is specially formulated with low extraction EPDM and peroxide cured to provide superior extraction levels, significantly reducing contamination. Flexible softwall construction provides superior handling in standard dispensing and reeling applications. Meets ISO22241 standards.

Tube

Specially formulated low-extraction EPDM, peroxide cured

Reinforcement

Synthetic Polyester Braid for Low Volumetric Expansion

Cover

Specially formulated low-extraction EPDM

Temperature

-40°C to +66°C

Coil Size

30.5mtrs (100ft)

Colour

Black
