

Stainless Steel Hi-Torque Hose Clamps

Brand JCS

Material All parts Stainless Steel BS304-EN1.4301

Information HI-TORQUE Heavy Duty Stainless Steel Hose Clamps have been specifically designed for tough and wire reinforced hoses and for when an extra margin of safety and reliability is required. HI-TORQUE clamps outperform nut and bolt type clamps due to their more uniform tightening which gives higher sealing pressure.

They are quick to fit, have no loose parts to lose in awkward places and require less space than any other heavy duty hose clamp.

HI-TORQUE clamps also offer a larger adjustment for each size than conventional nut and bolt clamps, thus reducing inventory size.

Extra Features

STRAIGHT LINE HOUSING

The HI-TORQUE design has a unique 'Straight Line' housing, which ensures that every thread of the screw is fully engaged with the band. This special feature, together with a high tensile band and hardened rolled thread screw means that HI-TORQUE clamps have more than twice the strength of ordinary worm drive hose clips.

LLOYDS REGISTER TYPE APPROVAL

Specifically approved by Lloyd's Register for the critical application of sealing wet diesel exhaust hoses.

Size	Range	Part No.
30	20-30 mm	1111005
40	25-40 mm	1111015
50	30-50 mm	1111025
60	40-60 mm	1111030
70	50-70 mm	1111040
80	60-80 mm	1111045
90	70-90 mm	1111050
100	80-100 mm	1111060
120	90-120 mm	1111065
140	110-140 mm	1111070
160	130-160 mm	1111075
180	150-180 mm	1111080
200	170-200 mm	1111085
220	190-220 mm	1111090
240	210-240 mm	1111095
